Experience

May Myanmar Lin Company

JR Dev

As a Junior Developer at May Myanmar Lin Company, I gained hands-on experience working on diverse projects, sharpened my coding and problem-solving skills, and thrived in a collaborative, fast-paced environment.

Projects

PKT Education Center **Sep 17, 2023 – Dec 18, 2023**

I played a crucial role in the development of the PKT Education site in collaboration with my team. My responsibilities covered both frontend and backend development. This project focused on organizational management and served as a comprehensive school management system.

Next.js, Laravel, Tailwind Css, livewire, Node.js

Online Movies Application

Movie App using Laravel

Movie App project design and development using Laravel as the backbone language and Tailwind CSS as the frontend design library. Frontend includes tailwind CSS, Livewire, and Alpine JS for events and shows. In the backend, we use the themoviedb.org API to fetch movie data and use it according to the frontend design. The movie app includes CRUD, Authentication, a watchlist system, Payment, and an Admin Panel.

Laravel, Backend, Api, Talwind Css, Livewire

Social App

X clone (formerly twitter)

X clone app with react js. Designed with MUI. User management system. Integration of express socket for the real-time notification system.

React, Express, node, Websocket, api, mui
